

IMPACT SNA BRANCH
STRIKE ACTION 03rd DECEMBER 2009

The Central Executive Committee of IMPACT has called for a further one day strike on Thursday 03rd December 2009.

All members are expected to take part.

Teaching colleagues in ASTI, INTO and TUI shall also be taking part in this action, and arrangements put in place for the 24th November strike should again be followed.

Post-Primary

Members should liaise with local teacher union reps (ASTI or TUI) and ensure an IMPACT presence on all pickets.

PRIMARY

In schools which are closed, and we are convinced that Special Needs Assistants cannot report for work on the day, it is not necessary to mount a picket. Members should contact their regional committees regarding picket duty at a Department of Education and Science office, a list of which is given below.

There is a march planned in Dublin in conjunction with our INTO colleagues, assembling outside the Department of Education and Science in Marlborough Street at 10.30am going to the Dail at 11.30am. We would hope to have as large an IMPACT SNA presence as possible on this march.

Department of Education Offices

Regional Office	Location	Area Served
Athlone	Cornamaddy, Athlone, Co. Westmeath

Loss of Pay

Bringing into account the various levies, PRSI and tax, the net cost of the loss of pay for a one day strike is 64% to 60% of 1/7TH of a weeks pay. This would be less for anyone on the higher tax rate.

Philip Mullen
Asst. Gen. Sec.
